

## SpecWare 9 Basic

- Easily download, analyze and produce basic reports from the weather data collected on your WatchDog Micro Stations and data loggers
- Eliminate valuable time exporting the data and performing calculations in tedious spreadsheet programs
- SpecWare 9 Basic automatically assigns each WatchDog Data Logger Station to its own “logger location” directory, which is appended every time you download new data
- Includes USB cable and manual
- Download the software from [specmeters.com](http://specmeters.com) (activation required)
- Only one activation per purchase

SpecWare 9 Basic does not support disease models, 2000 Series Full Weather Stations, or Retriever & Pups

<b>3654B9U</b>	<b>Spec 9 Basic Upgrade*</b>
<b>3661U</b>	<b>USB-to-3.5mm-Stereo-Plug Adapter</b>

\* Does not include USB cable

## SpecWare 9 Pro

Powerful analysis tools that are easy to use.

- Graph on-the-fly with an interactive graphing window
- Build, customize and save your most important report formats or choose from 15 standard reports
- Add optional insect and disease models to forecast pest pressures and reduce pesticide costs; produce reports with graphs for each pest
- Set a frost alarm that will call your phone at frost temperatures or other sensor conditions
- Automate logger downloads with wireless or directly connected stations
- Generate scheduled log files for data-to-web applications or create an XML file that can be posted on the web
- Find and use data easily with an open file management system - all logger data is stored in one file per month, simplifying data sharing and exporting
- Import data files from other applications
- International features include handling date, time, and numbers with regional formats and Metric or US measurements
- Includes USB cable and manual
- Download the software from [specmeters.com](http://specmeters.com) (activation required)
- Only one activation per purchase
